Thanks Tala (aka PFAS Queen ☺)

Let's discuss how to approach this during the call tomorrow.

Hi Tala

I assume you are out this week also so sorry to bug you with this, but are there others in OPPT that I should be inviting to this meeting?

I recall you said you had some folks looking at the current lab results.

When do you think we will have a better sense of whether the specific PFASs and levels are a concern or not?

It would be helpful to have something to share at the meeting tomorrow if possible. Alex asked to be invited too.
